Senior Infrastructure Support Engineer with over 5 years of experience delivering Level 2 enterprise IT support across global environments. Experienced in Microsoft 365, Windows infrastructure, Identity & Access Management (IAM), AWS, networking, and IT Service Management. Proven ability to troubleshoot complex infrastructure, authentication, and access issues while supporting secure and reliable enterprise operations. Currently expanding hands-on expertise in cloud technologies, IAM, and cloud security.

TECHNICAL EXPERTISE

- **Microsoft Technologies:** Microsoft 365, Exchange Online, Outlook, Teams, Intune
- **Cloud Platforms:** AWS (EC2, IAM, S3), Azure Fundamentals
- **Identity & Access Management:** Microsoft Entra ID, Active Directory, Okta, RSA, MFA
- **Infrastructure & Virtualization:** Windows Server, Citrix, VDI, NGVDI
- **Networking & Security:** DNS, VPN, Cisco, Palo Alto, Zscaler
- **ITSM & Endpoint Management:** ServiceNow, ConnectWise, Jira, SCCM

WORK EXPERIENCE

► Senior Infrastructure Support Engineer

August 2022 – Present

HCL Technologies Philippines | Remote

Promoted from Senior Analyst (2024)

- Deliver Level 2 infrastructure and identity support for 2,400+ global users across Microsoft 365, Windows Server, networking, AWS, and enterprise applications.
- Troubleshoot authentication, access, and infrastructure issues involving Microsoft Entra ID, Active Directory, Okta, Microsoft 365, Windows Server, VPN, DNS, Citrix, and AWS, while maintaining 95% SLA compliance.
- Administer enterprise user access across Active Directory, Microsoft Entra ID, Okta, and Microsoft 365, including account unlocks, password resets, MFA enrollment and recovery, user sessions, shared mailboxes, distribution lists, and application access requests.
- Manage incidents using ServiceNow, ConnectWise, and Jira, collaborating with Infrastructure, Network, Security, and Application teams to restore critical business services.
- Develop Knowledge Base articles, create Standard Operating Procedures (SOPs), and mentor new analysts on enterprise technologies, authentication workflows, and ITIL best practices.
- Resolved Microsoft Entra ID token authentication issues and Active Directory synchronization problems, restoring secure user access with minimal downtime.
- Promoted from Senior Analyst to Senior Infrastructure Support Engineer in 2024 and recognized as Overall Top 1 Service Desk Analyst for three consecutive months in 2025.
